

Veterinary Management

Software for Animal Care

Veterinary Management

Veterinary Management provides veterinarians, technicians, and management staff with the power to schedule and track animal care information on a daily basis. With the Mobile Vet companion product, you can capture clinical care data on the spot to keep everyone alert to the needs of the animals in your care.

Key Features

- ✓ Capture all animal observations.
- ✓ Schedule animal treatment plans.
- ✓ Customize feature access and reporting.
- ✓ Track case histories and diagnoses.
- ✓ Manage the complete animal health history.
- ✓ Check for scheduling conflicts.
- ✓ Schedule recurring and group events.
- ✓ Collect animal study data.
- ✓ Connect to balances and chip readers.
- ✓ Import data from analyzers.

Mobile Vet Features

- ✓ Scan animal health records from cage cards.
- ✓ Schedule animal care at the animal's location.
- ✓ Record cage-side diagnoses.
- ✓ Synchronize with Veterinary Management.
- ✓ Validate data during uploads.
