

Biosafety Protocols

Software for IBC Compliance

Biosafety Protocols

Biosafety Protocols sets the standard for comprehensive and intuitive software solutions for online IBC protocol management. Using its extensive Reviews and Meetings features, you can manage the entire biosafety protocol cycle to help ensure NIH and CDC compliance.

Biosafety Protocols

- ✓ Build custom biosafety forms.
- ✓ Link to related IACUC and IRB protocols.
- ✓ Submit, review, and approve protocols online.
- ✓ Attach files and links to protocols.
- ✓ Perform text searches across protocols.
- ✓ Track by risk groups and guideline sections.
- ✓ Track by GMOs and controlled substances.
- ✓ Track by biosafety levels and dual-use agents.

Reviews

- ✓ Manage multiple review assignments.
- ✓ Control review access by role and protocol.
- ✓ Track review progress with other committees.
- ✓ Collaborate online with other reviewers.
- ✓ Compare with previous submissions.

Meetings

- ✓ Schedule agendas for IBC meetings.
- ✓ Draft and finalize meeting minutes online.
- ✓ Add links and attachments to minutes.
- ✓ Check for meeting quorums automatically.
- ✓ Check for reviewer conflicts of interest.

The screenshot shows the main interface of the Biosafety Protocols software. At the top, there is a navigation bar with tabs for 'Main', 'Forms', 'Protocols', 'Reviews', and 'Meetings'. Below the navigation bar, the main content area is titled 'Biosafety Protocols' and contains several icons representing different tasks: 'Protocol Forms' (Create and Maintain), 'Protocols' (Complete and Submit), 'Reviews' (Inspect and Comment), 'Meetings' (Schedule and Record), and 'Reports' (Select and Generate).

The screenshot shows the 'Biosafety Registration II' form. The form has a 'Reference Number' field with the value '30027'. Below this, there is a table for 'Work and Storage Locations' with columns for Building, Room #, BioSafety Level (1, 2 or 3), and Room Use (Work or Storage). The table contains two rows of data:

Building	Room #	BioSafety Level (1, 2 or 3)	Room Use (Work or Storage)
TOPAZ	140	BSL 2	Work
TOPAZ	160	BSL 1	Storage

The screenshot shows the '30016' form. The form has a 'Work and Storage Locations' section with a table similar to the one in the previous screenshot. Below the table, there is a section titled 'Work and Storage Locations' with a text area for additional information. The text area contains the following text: 'Please include additional floorplans and evacuation diagrams for each of the work locations indicated in the table. Storage rooms need additional content disposal plans. Please attach those plans as well.'
